ABOUT SDLP

The Sustainable Development Law & Policy Brief (ISSN 1552-3721) is a student-run initiative at American University Washington College of Law that is published twice each academic year. The *Brief* embraces an interdisciplinary focus to provide a broad view of current legal, political, and social developments. It was founded to provide a forum for those interested in promoting sustainable economic development, conservation, environmental justice, and biodiversity throughout the world.

Because our publication focuses on reconciling the tensions found within our ecosystem, it spans a broad range of environmental issues such as sustainable development; trade; renewable energy; human rights; air, water, and noise regulation; climate change; land use, conservation, and property rights; resource use and regulation; and animal protection.

Sustainable Development Law & Policy prints in accordance with the standards established by the Forest Stewardship Council® (“FSC®”) that are designed to eliminate habitat destruction, water pollution, displacement of indigenous peoples, and violence against people and wildlife that often accompanies logging. Achieving FSC Certification requires that every step of the printing process, from lumber gathering to transportation to printing to paper sorting, must comply with the chain of custody established by the FSC which runs a strict auditing system to maintain the integrity of their certification process. Obtaining FSC certification is one way a publisher can ensure responsible use of forest resources. Our printer, HBP, Inc. is FSC Chain of Custody certified. (FSC® C010897).

To purchase back issues please contact William S. Hein & Co. at hol@wshein.com. To view current and past issues of the publication please visit our website at <http://www.wcl.american.edu/org/sdlp>. Current and past issues are also available online through HeinOnline, LexisNexis, Westlaw, vLex, and the H.W. Wilson Company. Please note that Volume I and Volume II are published as *International and Comparative Environmental Law*.

incorporate animal welfare and human-animal relationships into development programs, policies, and laws. Their pieces highlight how animal welfare is inextricably intertwined with human welfare—they are not mutually exclusive. Their pieces also demonstrate how affinity groups and animal welfare groups share many of the same challenges, goals, and enemies—creating potential opportunities for movements to collaborate against exploitation, poverty, and cruelty. We would also like to thank our staff for all of

their hard work and dedication to *SDLP*. Lastly, we would like to thank our readers for your continuing interest and support of *SDLP*.

Sincerely,
